

THAW INTENDS TO
FIGHT FOR FREEDOMFugitive From Matteawan in Jail
at Sherbrooke, Que.CITES JACK JOHNSON'S
CASE AS PRECEDENTPrisoner Claims He Was Merely
Passing Through Canada.

Sherbrooke, Que., Aug. 20.—Harry K. Thaw, cut short in his flight from the state hospital for the criminal insane at Matteawan, N. Y., by arrest at the village of St. Hermenegilde de Garford, just over the international line from New Hampshire, prepared in his cell in the county jail here to fight against being sent back to the United States.

Thaw faces deportation on the ground that he is an undesirable alien and extradition on a warrant charging him with bribery.

The warrant already issued in New York state for his arrest on a charge of conspiracy will not suffice to extradite him, in the opinion of local authorities.

These authorities received word that the district attorney of Dutchess county, in which Matteawan is located, was on his way here prepared to swear to a warrant charging Thaw with bribery—an extraditable offense—if necessary.

In his own defense Thaw claims that he was merely passing through Canada on his way to Detroit when his passage was interrupted by arrest. He exhibited what he claimed to be transportation to Detroit in support of this claim and cited the case of Jack Johnson to bear out his contention that he cannot be sent back to the United States by the Canadian authorities as long as he was simply passing through the country and intends to go beyond its borders.

Wants Thaw Deported.

District Attorney Conger of Dutchess county, New York, it is understood here, wants Thaw deported. He wants Thaw returned to the United States over that part of the international line touched by the state of New York.

Thaw came into the Dominion from New Hampshire, however, and if custom is followed he would go back to New Hampshire.

The Canadian immigration department at Ottawa held the chief of police here to hold Thaw under the immigration act, indicating that steps will be taken to deport him.

This theory was made almost a certainty by the information that the department had sent two inspectors to Sherbrooke with instructions to watch the case and institute proceedings to deport Thaw.

At Coaticook, where he was lodged in the lockup immediately after his arrest, Thaw engaged a local lawyer. He was arraigned before Justice of the Peace Dupuis. The justice read to him an indictment charging him with having unlawfully escaped from Matteawan and, without permitting a plea, remanded him to the jail at Sherbrooke for a hearing.

Two men were arrested with Thaw, but liberated later at Coaticook. They are believed to be confederates who aided him in his escape. The two men refused to give their names or say anything about themselves.

Calls Hearing Unfair.

W. L. Shurtliff, the Coaticook lawyer retained by Thaw, denounced the hearing before Justice Dupuis as unfair and said he would apply for a writ of habeas corpus for Thaw prior to the hearing before the extradition commissioner. Should the writ be refused Mr. Shurtliff said he would seek an appeal.

There is every indication that Thaw intends to wage a bitter fight against extradition, deportation, or both. From his cell in the county jail he sent out to the newspaper men a statement under this caption, type-written in capitals:

"No one has contended that for two years that Thaw has been in the Tombs he has been insane. There is no evidence of delusion in the slightest degree on his part. Is it anything crazy to take a pistol to defend yourself against a man who calls you a— and threatens to kill you before morning?"

After Thaw had spent some hours in his cell and grumbled a bit at his poor quarters he was removed to the hospital, where the accommodations are better. At his lawyer's suggestion he consented to see reporters.

"Where did you intend to go after you left Matteawan?" he was asked. "I may have been going home," he replied quickly and finally.

"Do you care to say anything about threats you are said to have made that you would go after certain people once you were out of Matteawan?" he was asked.

"I shall make no answer to the nonsense of that sort that has been printed," he replied. "And that ended the interview."

ABOLISHES DUTCH STANDARD

Democrats Rally Around Administration and Defeat Bristow Amendment for a Compromise Duty, Norris Amendment Against Free Sugar and Gallinger Amendment Against Free Maple Sugar.

Washington, Aug. 20.—President Wilson's program for free sugar in 1916 carried the day in the senate when Democrats rallied to the support of the tariff bill and defeated all amendments to the sugar schedule.

With all but Senators Ransdell and Thornton of Louisiana standing firmly for the administration the Democrats defeated the Bristow amendment for a compromise duty; the Norris amendment against free sugar and the Gallinger amendment against free maple sugar.

An amendment to abolish immediately the Dutch standard color test for sugar was adopted during the fight. It was proposed by Senator Bristow, Republican, and accepted by Senators Simmons and Williams, Democratic managers of the bill.

Under its provisions the Dutch standard, against which a consistent fight has been waged since 1909, will be abolished as soon as the tariff bill becomes a law, instead of next March, as the measure would otherwise have provided.

The decision on the sugar schedule came at the end of a debate devoted much of the bitterness that had been expected in connection with this fight.

Two Louisiana senators had made clear early in the consideration of the bill that they would vote with the Republicans in favor of a duty on sugar, but there were no others wavering in the ranks of the Democrats.

Action on the sugar schedule was followed by a speeding up of the legislative machinery. Democratic leaders expressed confidence that tariff revision would be greatly hastened within the next week.

The fight over free wool is still to come; but the success on the sugar schedule was accepted as evidence of what will happen when wool is reached.

DEITZES RETURN TO FARM

Go Back to Cameron Dam Where De-fender Made His Stand.

Eau Claire, Wis., Aug. 20.—Clarence and Leslie Deitz, sons of the notorious prisoner, were in the city on their way to the Deitz farm at Cameron dam, around which all the trouble centered and which ended in the killing of Oscar Harp and the imposition of a life sentence on John Deitz.

Mrs. Deitz and her family are going back to the farm and the boys are on their way to make arrangements for placing 100 head of young stock on the place.

The boys are confident that the efforts being made to secure a pardon for their father will finally be crowned with success.

The Deitz family has been prospering, lecturers, royalties and other sources of revenue having brought them a good income.

Mrs. Thaw Feels Keenly Recapture of
Her Son.

Cresson, Pa., Aug. 20.—Mrs. Mary Copley Thaw, at her country home, Elmhurst, is broken in spirit over the tidings that her son, whom she supposed to be free when she left New York, had been captured in Canada.

At first Mrs. Thaw refused to believe the report.

"I can't believe it," she exclaimed;

"I don't believe it."

She was silent for a moment and

tears came to her eyes.

"Even if I do believe it," she added

brokenly, "I am going home; it will

not change my plans. I am going

home and stay there."

FATAL WRECK ON
GREAT NORTHERNTwo Men Killed and Many Hurt
When Train Jumps Track.

Devils Lake, N. D., Aug. 20.—Two unidentified men were killed, one fatally injured and twenty or more passengers were injured, some seriously, when the Oriental limited, the Great Northern's "crack train," was derailed and plunged through an elevator at Cray, N. D., eleven miles east of this city.

That more were not killed was due to the bravery of the engineer, J. A. Sargent, who stayed with his engine, applied the brakes and brought the train to a stop, not, however, before the tender and the three following coaches had left the track. The coaches caught fire and were destroyed.

Fireman H. Falkenger sustained injuries from which it is believed he will not recover. Twenty or more passengers in the smoking car, one of the overturned coaches, were severely shaken up and cut by broken glass.

The tender and three coaches plowed their way through an elevator near the track, wrecking that structure. The two dead men are believed to have been tramps who were riding on the trucks of the baggage car.

Woman Member of Board Moves to
Exclude Suffrage Association.

Milwaukee, Aug. 20.—Woman suffragist forces in Milwaukee are angry because of the action taken by the Wisconsin State Fair association in refusing the Wisconsin Woman's Suffrage association a booth at the fair on the ground that the association was a political party. And to make the blow smart the keener the person to make the exclusion motion was the only woman on the board, Mrs. Ada Howe. Members of the suffrage association are inclined to dispute the definition of the association as a political party and maintain that, in refusing the women a booth, it has refused a privilege that has been uniformly granted in most other states of importance in the United States.

CHEAP LETTER RATE LATER

When Sulzer Thought He Might Be a Presidential Dark Horse—Arizona Suffering From Reputation Given It by Fiction Writers Who Portray Nonexistent Bad Men.

By ARTHUR W. DUNN.

Washington, Aug. 20.—[Special.]—Postmaster General Burleson will not advocate one cent postage under present conditions. While he is in favor of one cent postage when the time comes, he does not believe that the time is now at hand. Mr. Burleson prefers to improve and perfect present mail conditions, particularly the parcel post and the postal savings banks, before entering new fields.

Naturally the increase of second class rates is still a burning question, more particularly as the insistence upon higher rates on newspapers and periodicals grows stronger each year, but it is doubtful if such changes are made until there is an adjustment of railway mail pay and more definite knowledge is obtained about the cost and profits of the parcel post.

Makes Him the Busy Man.

Setting the great problems of the postoffice department is the very least of Postmaster General Burleson's troubles. It is settling the postoffice fights all over the country that takes his time and keeps him at his desk from morning until night. So far he has not denied himself to visitors, like his predecessors, but he tries to see all the senators and representatives as well as the politicians who are not in congress.

Sulzer as a Presidential Possibility.

When the situation at the Democratic national convention at Baltimore last year looked as if it might result in a deadlock William Sulzer quietly canvassed the situation among his friends as to the possibility of the convention turning to him as a dark horse candidate. There was a time one night when he thought that such might be the outcome rather than a split convention.

Sulzer pointed out that he had always been a friend and supporter of Bryan and had also been a zealous friend of Champ Clark. He believed that the friends of Clark and Bryan could unite on him. That might have happened before the convention would have been allowed to split.

Arizona All Right.

Very frequently a citizen of Arizona comes forward in an interview and asserts that the impression which prevails that Arizona is a "bad" state or is the home of "bad" men is all wrong and that, on the contrary, Arizona is all right. Of course Arizona suffers in reputation on account of the necessity of the fiction writers, who tell wonderful western stories that never could have happened and who must have some sort of location for them. Then the name Arizona lends itself to tales of devilment better than New Mexico, Utah or Idaho, all of which have had their share of "bad men" in the early days. Those who think there is anything the matter with Arizona should hear Senator Ashurst scatter language gems about the senate in praising the new state.

Will March Across.

"If American troops go across the Rio Grande at or near El Paso they will not cross on bridges or pontoons, but will march across the bed of the river," said a man from the southwest. "The Rio Grande at this time of year is much like some of our western streams, broad, but very thin."

Experts In Demand.

Whenever there is a tariff bill before congress tariff experts are in demand. It appears that there is a large number of them in the treasury department and in the customs service at New York and some other ports, and the best of them are brought to Washington to help senators and representatives in consideration of the tariff. As different senators take charge of the bill in the senate an expert sits next to him, furnishing facts and figures, and suggestions with which the senator meets the contentions of his opponents on the Republican side.

The Democrats have never been tariff experts before. For years they have allowed the Republicans to take up all the heavy work, contenting themselves with only such matters as interested them. Now they have to understand the tariff from end to end and necessarily need expert information for some of the intricate questions.

Knock Each Other—Courteously.

Senators occasionally knock each other, but courteously, they assert, and emphasize "courteously." Just the other day Senator Stone rounded up and "put it over" Senator Lippitt. The Rhode Island senator accused the Missouri senator of having attacked him personally. Stone denied this and proceeded to read into the record a series of criticisms of Lippitt which the late Senator Dooliver used and which were more serious and more personal than what had gone before. All the time Stone claimed he had the highest personal esteem for Lippitt.

The resolution was introduced by Mrs. Rachel A. Bailey, representing the Ladies of the Maccabees of the World. The chief objection made to the resolution was that it was not germane to the purpose of the meeting, which was to argue, was to discuss fraternal insurance, not politics.

M'CUMBER MAY GET PLACE

Boomed for Republican Congressional
Committee Head.

Washington, Aug. 20.—Senator P. J. McCumber of North Dakota may be named chairman of the Republican congressional committee. A boom in his behalf has been started by members from the West. A senator has never held this office, as the committee in the past has worked only in the interests of candidates for the house.

Now that the Constitution has been changed so as to provide for the election of senators by direct vote the complexion of the congressional committee will be changed somewhat.

Senators have served on the committee in the past, but usually they have been assigned to it when there were no Republican members from a given state.

The committee soon will meet to organize and it is the present purpose of friends of Mr. McCumber to nominate him for chairman.

HURRICANE WRECKS

aster at Keokuk, Ia.

Keokuk, Ia., Aug. 20.—Seven persons were drowned when the government steamer Henry Bosse was wrecked in the Mississippi river here by one of the worst wind and rain storms that has struck this city.

Seven others were rescued. Among them was Captain Seifert of the wrecked vessel, who, though seriously injured, managed to cling to a piece of wreckage until help arrived.

Five of the drowned were caught in the cabin and were unable to get out.

The hurricane struck the boat before it had gone 100 yards and tore it to bits, blowing the cabin from the hull and tipping the latter over and sinking it.

Captain Seifert was blown seventy-five feet when the cabin parted from the hull.

INFANT DEATH RATE LESS

Health Board Advises Against Use of
Too Much Milk.

Madison, Wis., Aug. 20.—Infant mortality is on the decline in Wisconsin. Tables of comparison compiled by the state board of health demonstrate this fact. The claim is also made by the board that more children die from overfeeding than from lack of nourishment.

"If parents would give young children pure water several times each day instead of heat producing milk the death rate among infants would be very materially reduced," according to L. W. Hutchcroft. "It is just as logical to give grownups meat and potatoes when they are thirsty as it is to give infants milk whenever they are hungry or not."

Comparing the total deaths among young children, with the total deaths reported for all age groups, the board of health statistics show that 21 per cent were among children under one year of age for 1908; for 1909, 22 per cent; for 1910, 20.4 per cent; for 1911, 19.3 per cent and for 1912, 17.8 per cent.

Washington, Aug. 20.—Hopeful, though somewhat puzzled by developments, administration officials anxiously await the receipt of the Huerta government's complete reply to the American communication by John Lind, personal representative of President Wilson in Mexico.

It is believed here in some quarters that Provisional President Huerta has practically decided to resign in favor of Senor Gamboa, with the intention of being a candidate in the coming elections.

He exhibited what he claimed to be transportation to Detroit in support of this claim and cited the case of Jack Johnson to bear out his contention that he cannot be sent back to the United States by the Canadian authorities as long as he was simply passing through the country and intends to go beyond its borders.

Wants Thaw Deported.

District Attorney Conger of Dutchess county, New York, it is understood here, wants Thaw ordered deported. He wants Thaw returned to the United States over that part of the international line touched by the state of New York.

Thaw came into the Dominion from New Hampshire, however, and if custom is followed he would go back to New Hampshire.

The Canadian immigration department at Ottawa wired the chief of police here to hold Thaw under the immigration act, indicating that steps will be taken to deport him.

This theory was made almost a certainty by the information that the department had sent two inspectors to Sherbrooke with instructions to watch the case and institute proceedings to deport Thaw.

At Coaticook, where he was lodged in the lockup immediately after his arrest, Thaw engaged a local lawyer. He was arraigned before Justice of the Peace Dupuis. W. L. Should the writ be refused Mr. Shurtleff said he would seek an appeal.

There is every indication that Thaw intends to wage a bitter fight against extradition, deportation, or both.

From his cell in the county jail he sent out to the newspaper men a statement under this caption, type-written in capitals:

"No one has contended that for two years that Thaw has been in the Tombs he has been insane. There is no evidence of delusion in the slightest degree on his part. Is it anything crazy to take a pistol to defend yourself against a man who calls you a— and threatens to kill you before morning?"

After Thaw had spent some hours in his cell and grumbled a bit at his poor quarters he was removed to the hospital, where the accommodations are better. At his lawyer's suggestion he consented to see reporters.

"Where did you intend to go after you left Matteawan?" he was asked. "I may have been going home," he replied quickly and finally.

"Do you care to say anything about threats you are said to have made that you would go after certain people once you were out of Matteawan?" he was asked.

"I shall make no answer to the nonsense of that sort that has been printed," he replied. "And that ended the interview."

The Deitz family has been prospering, lecture tours, royalties and other sources of revenue having brought them a good income.

Crew Deserts Ship.

Washington, Aug. 20.—Deserted by her crew as unseaworthy the bark Isolat Catherine lies at anchor in an isolated harbor on the Alaskan coast. The revenue cutter service was apprised of this by radiograms from Captain W. E. Reynolds, commander of the Bering sea fleet.

TRAIN HELD UP.

Portland, Ore., Aug. 20.—The Soo-Spokane train, east-bound for Minneapolis and St. Paul, was held up within the Portland city limits. Two persons were shot. The robbers escaped with valuables.

Ambition.

Uncle Horace (who is something of a sage and philosopher)—My boy, it is time for you to think seriously of the kind of future you intend to map out for yourself. To sum it up in a word, what epitaph are you anxious to have engraved upon your tombstone? Now, how (just beginning his career)—"He Got His Share."—London Telegraph.

Killed in Whirling Shaft.
Minneapolis, Aug. 20.—Bertram Jones, an engineer for the Minneapolis Malt Grain company, was wrapped around a whirling countershafting in the engine room of the company's plant and so severely injured that he died a few hours later.

MOTHER BROKEN IN SPIRIT

Mrs. Thaw Feels Keenly Recapture of
Her Son.

Cresson, Pa., Aug. 20.—Mrs. Mary Copley Thaw, at her country home, Elmhurst, is broken in spirit over the tidings that her son, whom she supposed to be free when she left New York, had been captured in Canada.

At first Mrs. Thaw refused to believe the report.

"I can't believe it," she exclaimed; "I don't believe it."

She was silent for a moment and tears came to her eyes.

"Even if I do believe it," she added brokenly, "I am going home; it will not change my plans. I am going home and stay there."

FATAL WRECK ON

GREAT NORTHERN

Two Men Killed and Many Hurt

When Train Jumps Track.

Devils Lake, N. D., Aug. 20.—Two unidentified men were killed, one fatally injured and twenty or more passengers were injured, some seriously, when the Oriental limited, the Great Northern's "crack train," was derailed and plunged through an elevator at Cray, N. D., eleven miles east of this city.

That more were not killed was due to the bravery of the engineer, J. A. Sargent, who stayed with his engine, applied the brakes and brought the train to a stop, not, however, before the tender and the three following coaches had left the track. The coaches caught fire and were destroyed.

Fireman H. Falkenger sustained injuries from which it is believed he will not recover. Twenty or more passengers in the smoking car, one of the overturned coaches, were severely shaken up and cut by broken glass. The tender and three coaches plowed their way through an elevator near the track, wrecking that structure. The two dead men are believed to have been tramps who were riding on the trucks of the baggage car.

REFUSED A BOOTH AT FAIR

Woman Member of Board Moves to Exclude Suffrage Association.
Milwaukee, Aug. 20.—Woman suffragist forces in Milwaukee are angry because of the action taken by the Wisconsin State Fair association in refusing the Wisconsin Woman's Suffrage association a booth at the fair on the ground that the association was a political party. And to make the blow smart the keener the person to make the exclusion motion was the only woman on the board, Mrs. Ada Howie. Members of the suffrage association are inclined to dispute the definition of the association as a political party and maintain that, in refusing the women a booth, it has refused a privilege that has been uniformly granted in most other states of importance in the United States.

TAKE CITY BY FIST FIGHT

Chinese Rebels Desert Wangchiatu in Haste.
Hankow, China, Aug. 20.—After a fist fight Sunday the rebels evacuated Wangchiatu in boats. In their haste to escape from the city a large number of them were drowned.

The rebels also have abandoned Nanchang, capital of the province of Kiangsi, and arrangements are under way for an entry of the northern forces.

BARS THE X RAY SKIRTS

Portland Mayor Orders Arrest of Women Wearing Them.
Portland, Ore., Aug. 20.—Mayor Albee ordered Chief of Police John Clark to arrest every woman found wearing the new X ray dress on the streets.

The new order includes all kinds of feminine attire which comes under the head of "immodest dress" and includes necks cut too low, sheathed skirt too much sheathed and slit skirts too much slit.

PENNY POSTAGE

IS NOT FAVORED

Postmaster General Prefers

Improving Parcel Post.

CHEAP LETTER RATE LATER

When Sulzer Thought He Might Be a

Presidential Dark Horse—Arizona

Suffering From Reputation Given It

by Fiction Writers Who Portray

Nonexistent Bad Men.

By ARTHUR W. DUNN.

Washington, Aug. 20.—[Special.]—Postmaster General Burleson will not advocate one cent postage under present conditions. While he is in favor of one cent postage when the time comes, he does not believe that the time is now at hand. Mr. Burleson prefers to improve and perfect present mail conditions, particularly the parcel post and the postal savings banks, before entering new fields.

Naturally the increase of second class rates is still a burning question, more particularly as the insistence upon higher rates on newspapers and periodicals grows stronger each year, but it is doubtful if such changes are made until there is an adjustment of railway mail pay and more definite knowledge is obtained about the cost and profits of the parcel post.

Makes Him the Busy Man.
Setting the great problems of the postoffice department is the very least of Postmaster General Burleson's troubles. It is settling the postoffice fights all over the country that takes his time and keeps him at his desk from morning until night. So far he has not denied himself to visitors, like his predecessors, but he tries to see all the senators and representatives as well as the politicians who are not in congress.

Sulzer as a Presidential Possibility.
When the situation at the Democratic national convention at Baltimore last year looked as if it might result in a deadlock William Sulzer quietly canvassed the situation among his friends as to the possibility of the convention turning to him as a dark horse candidate. There was a time one night when he thought that such might be the outcome rather than a split convention.

Sulzer pointed out that he had always been a friend and supporter of Bryan and had also been a zealous friend of Champ Clark. He believed that the friends of Clark and Bryan could unite on him. That night have happened before the convention would have been allowed to split.

Arizona All Right.
Very frequently a citizen of Arizona comes forward in an interview and asserts that the impression which prevails that Arizona is a "bad" state or is the home of "bad" men is all wrong and that, on the contrary, Arizona is all right. Of course Arizona suffers in reputation on account of the necessity of the fiction writers, who tell wonderful western stories that never could have happened and who must have some sort of location for them. Then the name Arizona lends itself to tales of devilment better than New Mexico, Utah or Idaho, all of which have had their share of "bad men" in the early days. Those who think there is anything the matter with Arizona should hear Senator Ashurst scatter language gems about the senate in praising the new state.

Will March Across.
"If American troops go across the Rio Grande at or near El Paso they will not cross on bridges or pontoons, but will march across the bed of the river," said a man from the southwest. "The Rio Grande at this time of year is much like some of our western streams, broad, but very thin."

Experts in Demand.
Whenever there is a tariff bill before congress tariff experts are in demand. It appears that there is a large number of them in the treasury department and in the customs service at New York and some other ports, and the best of them are brought to Washington to help senators and representatives in consideration of the tariff. As different senators take charge of the bill in the senate an expert is sent to him, furnishing facts and figures, and suggestions with which the senator meets the contentions of his opponents on the Republican side.

The Democrats have never been tariff experts before. For years they have allowed the Republicans to take up all the heavy work, contenting themselves with only such matters as interested them. Now they have to understand the tariff from end to end and necessarily need expert information for some of the intricate questions.

Knock Each Other—Courteously.
Senators occasionally knock each other, but courteously, they assert, and emphasize "courteously." Just the other day Senator Stone rounded up and "put it over" Senator Lippitt. The Rhode Island senator accused the Missouri senator of having attacked him personally. Stone denied this and proceeded to read into the record a series of criticisms of Lippitt which the late Senator Dooliver used and which were more serious and more personal than what had gone before. All the time Stone claimed he had the highest personal esteem for Lippitt.

The Proof.
"She was carried away with him."
"How do you know?"
"Why, they eloped."—Exchange.

SENATOR M'CUMBER.

Mentioned for Chairman of
the Congressional Committee.

M'CUMBER MAY GET PLACE

Boomed for Republican Congressional
Committee Head.

Washington, Aug. 20.—Senator P. J. McCumber of North Dakota may be named chairman of the Republican congressional committee. A boom in his behalf has been started by members from the West. A senator has never held this office, as the committee in the past has worked only in the interests of candidates for the house.

Now that the Constitution has been changed so as to provide for the election of senators by direct vote the complexion of the congressional committee will be changed somewhat.

Senators have served on the committee in the past, but usually they have been assigned to it when there were no Republican members from a given state.

The committee soon will meet to organize and it is the present purpose of friends of Mr. McCumber to nominate him for chairman.

HURRICANE WRECKS
RIVER STEAMBOAT

Seven Persons Perish in Dis-

aster at Keokuk, Ia.

Keokuk, Ia., Aug. 20.—Seven persons were drowned when the government steamer Henry Bosse was wrecked in the Mississippi river here by one of the worst wind and rain storms that has struck this city.

Seven others were rescued. Among them was Captain Seifert of the wrecked vessel, who, though seriously injured, managed to cling to a piece of wreckage until help arrived.

Five of the drowned were caught in the cabin and were unable to get out.

The hurricane struck the boat before it had gone 100 yards and tore it to bits, blowing the cabin from the hull and tipping the latter over and sinking it.

Captain Seifert was blown seventy-five feet when the cabin parted from the hull.

INFANT DEATH RATE LESS

Health Board Advises Against Use of
Too Much Milk.

Madison, Wis., Aug. 20.—Infant mortality is on the decline in Wisconsin. Tables of comparison compiled by the state board of health demonstrate this fact. The claim is also made by the board that more children die from overfeeding than from lack of nourishment.

"If parents would give young children pure water several times each day instead of heat producing milk the death rate among infants would be very materially reduced," according to L. W. Hutchcroft. "It is just as logical to give grownups meat and potatoes when they are thirsty as it is to give infants milk whenever they cry regardless of whether they are hungry or not."

Comparing the total deaths among young children, with the total deaths reported for all age groups, the board of health statistics show that 21 per cent were among children under one year of age for 1908; for 1909, 22 per cent; for 1910, 20.4 per cent; for 1911, 19.3 per cent and for 1912, 17.8 per cent.

SIDESTEP SUFFRAGE.

Chicago, Aug. 20.—Delegates to the annual convention of the National Fraternal congress refused to adopt a resolution recommending the passing of equal suffrage laws in all states. The resolution was introduced by Mrs. Rachel A. Bailey, representing the Ladies of the Maccabees of the World. The chief objection made to the resolution was that it was not germane to the purpose of the meeting, which, it was argued, was to discuss fraternal insurance, not politics.

FOUR KILLED BY LIGHTNING

Severe Storm Breaks Long Drouth in

Missouri.

St. Louis, Aug. 20.—A severe wind, thunder and rain storm which swept over Eastern and Central Missouri broke the long drouth and abated the intense heat spell, but at a cost of four lives and perhaps hundreds of thousands of dollars damage to property.

At Dexter, Mo., four men were killed by lightning. In St. Louis lightning set fire to thirteen houses in less than a half hour. More than three inches of rain were reported in some sections of the city after an hour's precipitation.

HUERTA DECIDES
TO MEET LIND

PAWNBROKERS DENY STORY

Say McDermott Was Not Even Asked
to Oppose Bill.

Washington, Aug. 20.—The house lobby investigating committee continued to probe the statement of I. H. McMichael, one time chief page of the house, that Representative James T. McDermott of Illinois had been given \$7,500 to work against a "loan shark" bill for the District of Columbia, by pawnbrokers affected by the bill.

Two of the three brokers who contributed to a fund to be used against the bill denied that Mr. McDermott had even been asked to oppose its passage.

They swore they raised about \$3,750 for use in the employment of attorneys and for presenting printed arguments to congressmen.

MEXICAN PRESIDENT SENDS FOR
SPECIAL AMERICAN ENVOY.

Interview Proves Cordial

Officials at Washington Anxiously Await Mexican Government's Complete Reply to American Communication—Belief Prevails in Some Quarters That President Huerta Has Decided to Resign.

Washington, Aug. 20.—Hopeful, though somewhat puzzled by developments, administration officials anxiously await the receipt of the Huerta government's complete reply to the American communication by John Lind, personal representative of President Wilson in Mexico.

It is believed here in some quarters that Provisional President Huerta has practically decided to resign in favor of Senor Gamboa, with the intention of being a candidate in the coming elections.

President Wilson and Secretary Bryan had received in the past twenty-four hours:

A summary from Mr. Lind giving briefly the Huerta government rejection of the American proposals.

About 1,000 words of the text of the Huerta reply.

A message from Mr. Lind stating that he had been in conference with Provisional President Huerta, that the interview had been cordial and was brought about at the suggestion of Huerta himself.

A denial from Charge O'Shaughnessy, authorized by Huerta, that there was any truth in the report of an ultimatum demanding recognition from the United States.

Officials hold the view that nothing can be done by the United States until Mr. Lind concludes his parleys with Huerta and his cabinet.

There was an undercurrent of skepticism among officials who were inclined to credit Senor Urrutia, Mexican minister of the interior, with the responsibility for the reports published that recognition had been demanded of the United States with a threat of severing relations between the two countries.

At the White House and state department the denial authorized by Provisional President Huerta was accepted.

OPPOSES SEVERAL FEATURES

Senator Owen Favors Amending Cur-

rency Bill.

Washington, Aug. 20.—Unexpected developments in regard to currency reform legislation in the senate promised serious complications for President Wilson's plans for the passage of a currency bill at this session of congress.

At a conference of Democratic members of the senate currency committee Chairman Owen, who has been considered one of the original framers of the bill now before the Democrats of the house, made it clear that he was opposed to several features of the bill, including the plan for twelve regional reserve banks, and that he would recommend important changes in the measure.

The results of the senate conference have been to leave the currency situation entirely open so far as the senate's probable action is concerned.

Leading Nations Are Represented on

Commission.

Paris, Aug. 20.—On the initiative of the division of education of the Carnegie endowment for international peace a commission representing the United States, Great Britain, France, Russia, Germany and Austria has been appointed to make an impartial inquiry into the alleged massacres in the Balkans during the recent war and the economic consequences arising from the war.

The inquiry will not be affected by any political considerations.

The work of the commission will have as its basis evidence published by the governments and by official news agencies and the testimony of American and European travelers who have visited the scenes.

PHILIPPINE EDUCATOR DEAD

Dr. Frank R. White Succumbs at

Manila.

Washington, Aug. 20.—Dr. Frank R. White, director of education of the Philippine government, died at Manila Sunday, according to a report to the bureau of insular affairs.

Dr. White was one of the first American teachers sent to the Philippines in 1910. He advanced until he became the head of the educational system of the islands four years ago.

German Rivers Overflow.

Berlin, Aug. 20.—Germany is facing serious floods as the result of continuous heavy rain storms. The Vistula and other Silesian rivers are out of their banks. Several towns and a great acreage of grain have been inundated. Crop losses already are heavy. Much damage is reported from Riesenberge, a mountainous region between Bohemia and Prussian Silesia.

MUSIC AND DRAMA

"Shepherd of the Hills"

A wholesome play, whose author seems to have equal love for nature and humanity and an intimate knowledge of both, is "The Shepherd of the Hills," the dramatization of Harold Bell Wright's famous novel which has been made by Mr. Wright with the assistance of Elsbury W. Reynolds.

The "hills" the beautiful Ozark, and against this majestic play background the author has sketched the tenderest tale of love, the most appealing story of nature. Through the peace of the mighty hills pervade the drama, its acts are tense with deeds of daring that demand both physical and moral courage.

"The Shepherd of the Hills" will be the attraction at the Brainerd opera house Tuesday, August 26. Prices 25, 50, 75 and \$1.

MUSIC AND DRAMA

"Shepherd of the Hills"

A wholesome play, whose author
seems to have equal love for nature
and humanity and an intimate
knowledge of both, is "The Shepherd
of the Hills," the dramatization of
Harold Bell Wright's famous novel
which has been made by Mr. Wright
with the assistance of Elsbey W.
Reynolds.

The "hills" the beautiful Ozark,
and against this majestic play back-
ground the author has sketched the
tender tale of love, the most ap-
pealing story of nature. Through
the peace of the mighty hills per-
vade the drama, its acts are tense
with deeds of daring that demand
both physical and moral courage.

"The Shepherd of the Hills" will
be the attraction at the Brainerd
opera house Tuesday, August 26. Prices
25, 50, 75 and \$1.

30,000 VOICES!

And Many Are the Voices of Brainerd
People

Thirty thousand voices—What a
grand chorus! And that's the num-
ber of American men and women who
are publicly praising Doan's Kidney
Pills for relief from backache, kidney
and bladder ills. They say it to
friends. They tell it in the home pa-
pers. Brainerd people are in this
chorus. Here's a Brainerd case.

Mrs. J. H. Zellers, 913 Main St.,
Brainerd, Minn., says: "I never tire
of recommending Doan's Kidney Pills
for they have been so beneficial to
me. Some years ago I publicly en-
dorsed them and at this time I am
willing to do so again. I took Doan's
Kidney Pills, procured at H. P.

PICKLE FACTORY AT WORK IN CITY

Twenty-Five to Thirty Loads of Cucumbers are Daily Received by Brainerd Company

IS A NEW INDUSTRY IN CITY

Many Cucumbers Raised by the Farmers and Truck Gardeners in This Vicinity

Brainerd people, as a rule, are unaware of a new industry which is operating in the city in the basement of the Brainerd Grocery company. Here it is that the Brainerd Pickling company is daily receiving from twenty-five to thirty loads of cucumbers and is pickling them.

Contracts were made with the farmers and truck gardeners in the vicinity of Brainerd early in the year and they are now realizing on the crop planted. The pickles find a ready sale.

CATCHES BIG FISH

J. Palmer Clark, of Kansas City, Mo., Lands a Whopper at Borden Lake

J. Palmer Clark, of Kansas City, Mo., caught a 7 1/4 pound black bass in the waters of Borden lake, being accompanied on his fishing trip by Ed. Smith and Ed. as well as other witnesses vouch for the story. In addition, the bass was on display in the auto as it stood near the First National bank this morning. It certainly was some fish and Mr. Clark has had it photographed in a dozen positions and may have it stuffed rather than eat it, so that future generations of Clarks may see it.

To further clinch the matter Mr. Clark had affidavits drawn by Fred Farrar in which the guide gave his account of the fish. The measurements were length 21 1/2 inches, girth 18 1/2 inches. The photo and a story will be sent to "Field & Stream," a magazine devoting to hunting, fishing and out door sports.

IN MUNICIPAL COURT

Two Railway Workers from the M. & I. Grade Imbibe Freely and are Gathered in

Officer Mike Setula last night gathered in two railway workers from the Minnesota & International railway cutoff, who were under the influence of liquor and this morning they appeared in municipal court.

Frank Peterson was fined \$5 or five days for being drunk and disorderly. He paid the fine. The same punishment was meted out to John Johnson and he also paid.

The teeth found by the police department belonged to a prominent citizen of Brainerd and his wife and the whole family laughed when they read of pa's predicament in the paper.

"I am glad your men found my teeth," said the North Sider, "but for all the world don't mention my name. I have been joshed enough about the incident."

J. A. McLennan, Member Largest Insurance Company, of Duluth, Visits the City

J. A. McLennan, member of the firm of Manly-McLennan company, the largest insurance firm in Duluth, was in the city yesterday, having returned from a visit at Itasca State park. He is a leader in the younger society set of the Zenith City.

He had nothing but words of praise for Brainerd and commented on the stir Brainerd was making in Duluth. The granting of the street railway franchise had awakened great interest in Brainerd and many men were turning their eyes to Brainerd realty. Brainerd was due for progress and would advance in like ratio as Duluth. Both were coming forth from their grub-like cocoons and expanding.

"FROM THE MANGER TO THE CROSS"

Reverent Pictures Portray the Life of Christ From His Birth to His Crucifixion

THEY MOVE MANY TO TEARS

To View These Scenes is to be an On-looker in the World's Greatest Drama

Reverently unfolding the scenes from the life of Christ, from His birth in the manger to His crucifixion, large audiences last night witnessed the Kalem films displayed at the opera house. The pictures will also be shown tonight. Appropriate singing and orchestra music of a religious nature accompanied the pictures.

Their sweet simplicity, the sincerity of the actors in the great drama, the wonderful setting given by being photographed at many points where centuries ago these events were enacted, these all contributed to make them the most wonderful pictures ever shown in Brainerd. Many were moved to tears.

The history of the Saviour is traced from His birth in the manger. The shepherds are shown on the hills. As a contrast to their lowly station in life one witnesses the wise men of the east who also receive the message and both follow the star and meet at the manger and offer their tributes.

The childhood of Christ is sketched in vivid lines. His visit at the temple and other incidents. Then follows His ministry and the calling of His disciples. His curing the sick and crippled. He drives the money changers from the temple.

Gradually the great drama unfolds. Judas betrays Him and accept thirty pieces of silver. Seated at the last supper Jesus confounds Judas by His knowledge of the betrayal.

Later on the hill the soldiers led by Judas come to take Him. Judas kisses the Saviour and they, aware of the signal, seize and bind Christ and make Him prisoner. Judas, later overcome by remorse, throws back the silver and hangs himself. Christ is taken before Pilate and the weak, vacillating governor finds no wrong in Him but hands Him over to the tender mercies of the mob.

Bearing His cross Jesus makes the ascent to Calvary. He meets His mother on the way. At the hill He is nailed to the cross, and it is reared between two thieves. The soldiers cast lots for His garments. He suffers and He dies. "It is finished" and these words mark the close of the greatest drama the world has ever witnessed.

STANDARD ATLAS OF THE COUNTY

Compiled by George A. Ogle & Co., Publishers and Engravers, of Chicago, Ill.

IS A COMPREHENSIVE WORK

Includes a Plat Book of the Villages, Cities and Townships of the County

The Standard Atlas of Crow Wing County, published by George A. Ogle & Co., of Chicago, Ill., has made its appearance from the presses of the publishing and engraving firm and the work has been well received in the county.

Press work, maps, engraving and an outline map of Crow Wing county binding are of the best. Following which shows roads, school houses, railways, mines, etc., comes a map of West Brainerd, east section of Brainerd, Lakewood Park, Hubert, Iron Hub, Riverton, Carlisle's Lake Front, Cuyuna, Deerwood, Oreland, Minister's Point, Stevens Park, Merrifield, Barrows, Crosby Beach, Linden Park, East Twin Lake lots, Crosby and Ironton, Clearwater Heights, Pine Crest, Pequot, Fort Ripley, Orefield, Outing, Emily, Manganese, Homecroft, Jenkins, Boruszak, Klondike, Baxter and Brainerd.

Then follow the township maps in which the ownership of the various farms is shown as well as roads, schools, character of land whether marshy, etc.

There is also a large map of Minnesota and one of the United States, and one of the world. A patron's reference directory of Crow Wing county is presented, numerous illustrations, and much data.

The book is well worth the price and copies have been eagerly bought. It is the only atlas showing Crow Wing county to date and accordingly is a valuable contribution and a great benefit to the county.

IMPORTANT RULING

When Declarations of Intention to Become Citizen Become Void—Other Points

Robert S. Coleman, chief naturalization examiner, in a circular letter to District Court Clerk W. A. M. Johnston, states that it would be well at this time to give as much publicity as possible to the fact that all declarations of intention to become citizens executed after September 26, 1906, become absolutely void and unless seven years after date of execution.

One of the United States District courts has held that the seven year period of limitation began to run on September 27, 1906, against all declarations of intention executed prior to that time.

It should be borne in mind that both of the witnesses on a petition must be citizens of the United States; and if it develops at the hearing that one, or both, of the witnesses is not a citizen, the petition will have to be dismissed; for, in such cases, no substitution can be lawfully made. In each instance where a witness is a naturalized citizen, a particular request is made of the clerk, at the time of filing the petition, he is to be instructed to bring his second papers with him to the hearing.

All petitioners for naturalization who executed their first paper after the passage of the act of June 29, 1906, must sign the petition in their own handwriting, and not by cross-mark, Congress evidently intending that they must have at least that degree of literacy as to be able to write. The law makes no exception whatever in favor of homesteaders in this matter.
